Certificate of Compliance REACH SVHC Content Information

We have contacted our suppliers for the materials we use from them in production of our labels/overlays, concerning the content of the REACH Chemical Substances. After examination, we conclude that no SVHCs are present according to EC 1907/2006 through the current amendment of July 8, 2021. None of the substances are knowingly used or intentionally added during the manufacturing process.

Please be advised that we do not routinely analyze our products and it is, therefore, not possible for us to state categorically that our products are "free" from these substances. Trace amounts may be present in the environment, giving the potential for low-level contamination.

A handwritten signature in blue ink, appearing to read "Phill Bradley", is written over a light blue horizontal line.
